Shenyang Medical College

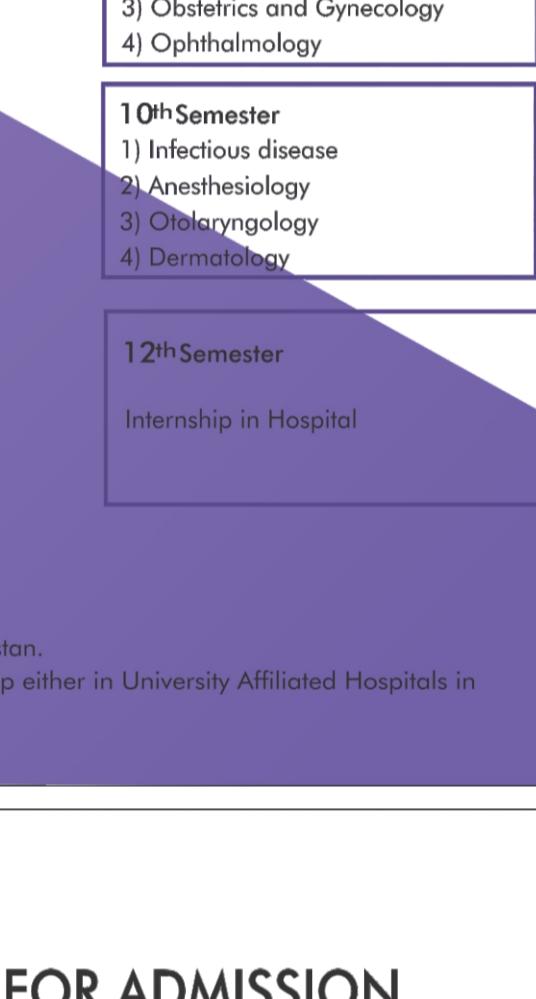

INTERNATIONAL STUDENTS ADMISSION BROCHURE

LIFE IN SHENYANG

Shenyang is the economical, cultural, communication, trade and commercial hub of the Northeastern region of China; it is also a major industrial and cultural city with historical importance. Shenyang is located at the center of the Northeast Asian economic ring and Bohai Economic Ring. The reputed universities and colleges in Shenyang facilitated the city with excellent science researching capability. While enjoying a world-class education system, both the central bureau and the Liaoning municipal government attach great emphasis on attracting international students from all over the world by offering various scholarships. It is both affordable and pleasant to study in Shenyang.

Shenyang is an ideal destination for international students who want to study in China for its advanced education system and has been enrolling foreign students since 1950s. Besides, its rich in historical heritage offers overseas students an excellent chance to experience China's traditional folk culture. In recent years, the city has maintained a sustainable growth rate in the number of international students at its universities. As home to some of China's best universities, programs available include degree courses ranging from undergraduate to master's and doctoral degree programs.

Inner-city transport

Shenyang is the largest transportation hub in northern China with a complex network of aviation, railway and expressway.

Bus: Shenyang has an extensive bus system with more than 3,000 city buses running on over 140 lines for local communication.

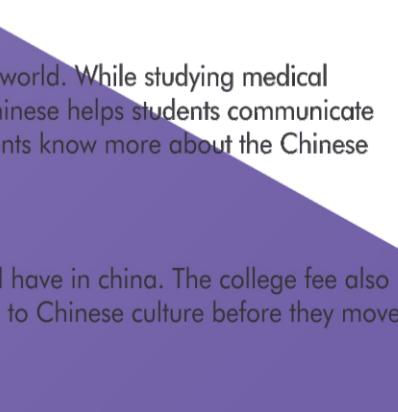

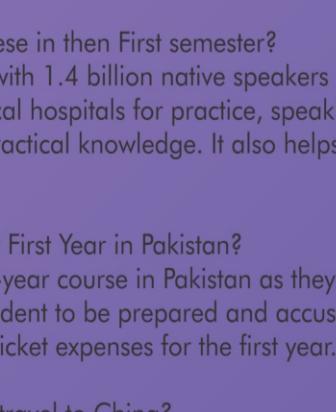

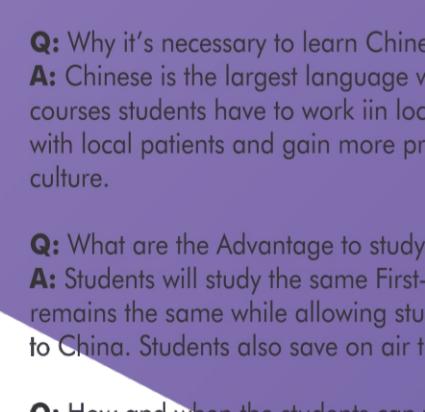

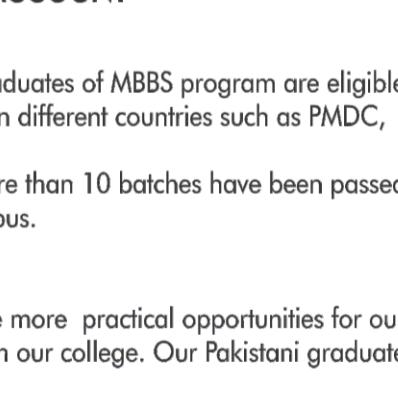

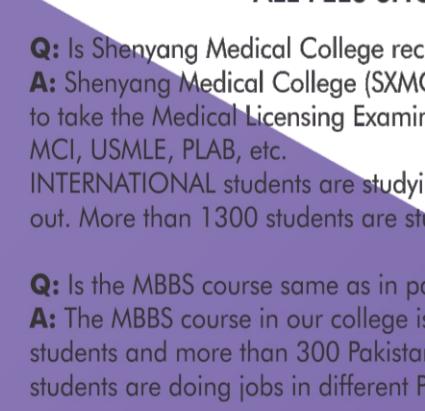

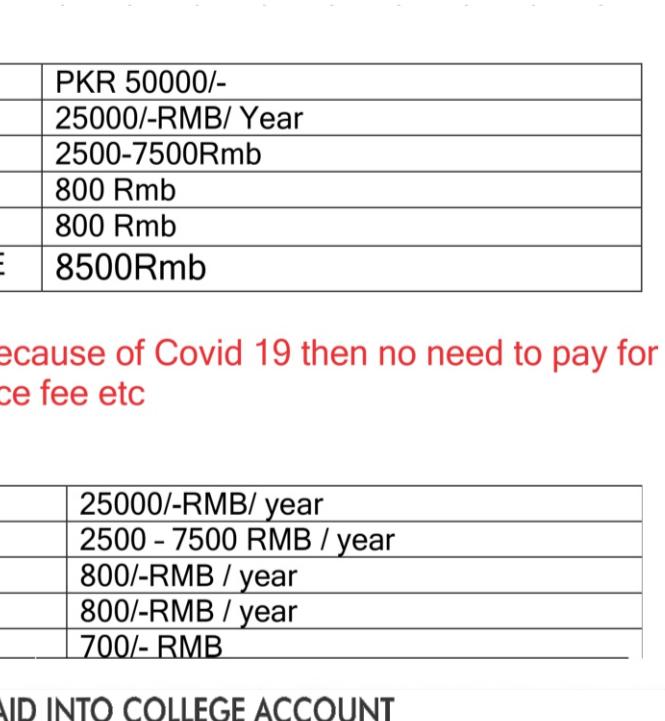

Subway: There are 2 subway lines Shenyang have been put into use since September 27th, 2010. The Line 1 consists of 22 stops with a 27.8 km journey from west Shenyang to the east part. The ticket fare is between 2-4 RMB depending on the distance.

Shopping & Leisure

Shenyang is the largest collecting and distributing center for commodities in the Northeast. It is a great experience to shop in the city because you can almost buy anything you want in Shenyang, developing into an international city, Shenyang offers visitors numerous options to spend their leisure in the city. There are a lot of featured cafes in Shenyang where you can relax yourself and socialize with local friends.

WELCOME TO SYMC

Q: Is Shenyang Medical College recognized by WHO?

A: Shenyang Medical College (SYMC) is recognized by WHO and the graduates of MBBS program are eligible to take the Medical Licensing Examinations held by the medical councils in different countries such as PMDC, MCI, USMLE, PLAB, etc.

INTERNATIONAL students are studying MBBS degree since 2004 and more than 10 batches have been passed out. More than 1300 students are studying from 48 countries in our campus.

Q: Is the MBBS course same as in Pakistan colleges?

A: The MBBS course in our college is the same as in Pakistan. We provide more practical opportunities for our students and more than 300 Pakistani students have been graduated from our college. Our Pakistani graduate students are doing jobs in different Pakistani hospitals.

Q: Why it's necessary to learn Chinese in the first semester?

A: Chinese is the largest language with 1.4 billion native speakers in the world. While studying medical courses students have to work in local hospitals for practice, speaking Chinese helps students communicate with local patients and gain more practical knowledge. It also helps students know more about the Chinese culture.

Q: What are the advantages to study First Year in Pakistan?

A: Students will study the same First-year course in Pakistan as they would have in China. The college fee also remains the same while allowing students to be prepared and accustomed to Chinese culture before they move to China. Students also save on air ticket expenses for the first year.

Q: How and when the students can travel to China?

A: After completing the first year of study, University will manage the visa for the students and all the students will move to University in China in a group and will continue their study from the second year onwards.

1st and 2nd semesters students will study in Pakistan.

11th and 12th semester students will do internship either in University Affiliated Hospitals in China or hospitals in their own country.
